EDUCATION

Centurion University of Technology and Management
B.tech in Electronics & Communication Engineering *GPA: 7.50*

Odisha, India
Sep 2022 - Mar 2026

+2 Govt. High School, Jamalpur
Class XII Mathematics with Biology *GPA: 64%*

Bihar, India
Mar 2020 - May 2022

Kumar Ramanad Smarak +2 High School
Class X Mathematics *GPA: 57.7 %*

Bihar, India
Mar 2018 - Apr 2019

WORK EXPERIENCE

Yhills EduTech Pvt. Ltd.
Web Development Intern

Remote
Feb 2024 - May 2024

- Developed a responsive Employee Management Dashboard using React.js and Tailwind CSS And Supabase.
- Built admin functionalities to add, update, delete employees and manage roles, salary, and performance data.
- Integrated Supabase for authentication, real-time database operations, and secure data management.
- Implemented complete CRUD operations with clean component architecture and form validation.
- Built dynamic dashboards with real-time employee data visualization for monitoring workforce insights.
- Implemented role-based access control (Admin/User) to ensure data security and controlled permissions.

SKILLS

Programming Languages: C, Java, Python, JavaScript, TypeScript
Frameworks: React.Js, Angular.Js, Express.Js, Node.Js, Next.Js
Database: MySQL, MongoDB, PostgreSQL
Tools: Git, GitHub, Postman, VS Code, Docker, n8n, Vercel, Stripe, MongoDB Atlas
Soft Skills: Problem Solving, Team Collaboration, Effective Communication

PROJECTS

VidZilly- AI Short Video SaaS Platform *Next Js, Supabase, Clerk, Gemini Api, Razorpay* [LIVE DEMO](#)

This platform is developed using **Next.js, Supabase, Clerk, Gemini API, and Razorpay**, ensuring a modern and scalable architecture. It automatically generates AI-powered short videos, including script generation, image creation, voiceover, captions, and video rendering. Users can choose video style, voice, and schedule publishing to **Instagram Reels and YouTube Shorts**. The system supports automated scheduling, email delivery of generated videos, and secure payment processing through Razorpay.

Learning Management System *React, Express.Js, Node.Js*

[LIVE DEMO](#)

Developed a full-stack Learning Management System (LMS) for online courses. Implemented Stripe payment integration for secure checkout and subscription management. Features included user authentication, course catalog, video lessons, quizzes, progress tracking, and payment receipts. Built with React.js (frontend) and Node.js / Express / Supabase. Designed a responsive, user-friendly UI to support students on desktop and mobile.

GenUP Nexus -AI-Powered Interview Preparation , React Js Node Js , Express Js

[LIVE DEMO](#)

GenUP Nexus is an AI-powered interview preparation platform developed using the MERN stack (MongoDB, Express.js, React.js, Node.js) integrated with Google's Gemini API. It provides personalised interview question generation, real-time answer evaluation with AI feedback, progress tracking, and targeted resource recommendations. The platform includes secure authentication, role-based access, and a fully responsive UI for a smooth user experience across devices.

INTEREST

Full-stack web development

Skilled in building responsive and scalable web applications using front-end and back-end technologies

Artificial Intelligence & Machine Learning projects

Passionate about developing AI and ML solutions, including predictive models, data analysis, and intelligent applications.

Competitive coding and problem-solving
